

Lupus research in the Pediatric Clinic at BC Children's Hospital- Going Strong!

By: Lori B. Tucker MD

The Pediatric Rheumatology Team at BC Children's Hospital cares for most of the children and adolescents with lupus in BC. They also have one of the most active research programs in Canada focused on pediatric lupus. This article outlines two studies completed by the Pediatric Rheumatology Team, focusing on exercise and fatigue in youth, as well as nutrition and weight gain related to corticosteroids.
